PROFILE

Front-end web developer skilled in HTML, CSS, JavaScript, and Bootstrap with hands-on experience in building responsive, user-friendly websites and web applications. Proficient in MS Word and Excel for documentation and data management, with strong problem-solving skills and a focus on creating clean, professional user interface designs.

PROJECTS

Resume Builder Web Application, *JavaScript* 🌐

- Dynamic Resume Preview – Real-time rendering of resume content while filling out forms.
- Download as PDF – Resume export option using JavaScript libraries.
- Responsive Design – Mobile-friendly interface using Bootstrap grid and components.
- Form Validation – Ensures correct input formats for emails info etc.

Interior Design Website, *Bootstrap* 🌐

- Developed a responsive web application using HTML, CSS, JavaScript, and React JS to display interior design ideas and styles.
- Implemented responsive design principles to ensure seamless performance across desktop, tablet, and mobile devices.
- Added category-based filtering and image gallery for users to explore different design styles easily.

News Web Application, *React.js*

- Integrated third-party News API for live, real-time global news.
- Built with React components and hooks for efficient state and data management.
- Designed a responsive layout ensuring smooth performance on mobile and desktop.
- Enhanced user experience with category filtering and visually appealing news cards.
